School Site: Mohawk Valley School

Buildings:

Description of Problem

Please include a detailed description of the issues, as well as a description of and a copy of any professional studies, citations or reports from government entities, recommended solutions, and any cost information or estimates. If additional space is needed, please attach.

We had a septic system failure in our housing. House # 1's septic system has failed. The stuff in the septic vault will not enter the leech field. The plumber thinks the leech field is filled with dirt and will not work anymore and says that the entire septic system has failed and needs to be replaced. We have a family living in the house. We have pumped the vault and will continue to pump as needed but it will fill fast with no leeching. Estimated cost for total fix is \$50,000.

Project Category: Plumbing

Are any of the above-described issues in buildings or part of buildings that are leased to another entity, including a district sponsored charter school? ?

Available Funding

Current unencumbered building renewal fund balance (Fund 690):	\$0.00
Amount of Local funds planned for this project	\$0.00

Please outline any associated insurance coverage.
